PROGRAM APPROVAL

1. PURPOSE: To provide funds for building extension and installation of two each 60 cycle frequency converters and one each 150KW motor drive generators at Detachment "C".
2. Description of Work or Services Required: The two Buda 100KW Generators installed at Detachment "C" in 1957 have had continuous twenty-four hour per day use since installation. Constant maintenance and limited supply of spare parts indicates that these two generators should be replaced to prevent major damage to equipment and future power failure. [] can provide two each 60 cycle frequency converters and one 150KW motor drive generator to Detachment "C" with no cost to them.
3. Expected Additional or Related Work or Services: None
4. Total Estimated Cost: [] (Building extension and installation)
5. Delivery Schedule and Period of Performance: The equipment is available in the area at no cost to KUBARK. Ancillary work will be fabricated by work force currently under contract to the detachment.
